

Clip Strip Corp. has introduced Roto Clip sign holders. Roto Clips easily attach with spring tension clips. Four models grip material up to 1" thick, and can be placed virtually anywhere. They can be used on wood, glass, and acrylic shelving, grid panels, garment racks, display arms and wire panels or can be utilized directly off the product itself (e.g. tops of bottles, lampshades, etc.). The remainder of the line accommodates material up to 3/8" thick. Roto Clips come with one to five uni-socket joints, allowing the signage to be displayed at any angle. The uni-socket joints also permit the signs to be rotated. For more information, contact Clip Strip Corp., 343 South River Street, Hackensack, NJ 07601; (Tel) 800-425-4778, (Fax) 201-342-1438, (Web) [www.clipstrip.com](http://www.clipstrip.com).

OnScreen Technologies has debuted its new Living Window, a colorful, dynamic messaging sign that can turn any retail or store front window into a customized dynamic dig-

ital sign. OnScreen has added new features to its original Living Window, such as multi-color LEDs, modular design for custom sizes and WiFi local management capabilities. "The Living Window is a proven, powerful sales tool, and the addition of a colorful display will only increase that impact," said Rob Gowans, V.P., Sales. For more information, contact OnScreen Technologies, 600 NW 14th Avenue, Portland, OR 97209; (Tel) 866-710-7334, (Fax) 503-417-1717; (Web Site) [www.onscreentech.com](http://www.onscreentech.com).

Ampronix Imaging Technology has designed the Infomaxx CF to meet the evolving needs of point-of-sale displays. This unit is a stand-alone device for retail store digital flyers, point-of-sale advertising and digital sign applications. With an integrated Compact Flash Media Station, it is easy to load videos directly to the display. With the DVI-D input, it is also easy to connect the panel to digital video sources. For more information about the Infomaxx CF, contact Ampronix Imaging Technology, 8697 Research Drive, Irvine, CA 92618; (Tel) 949-428-3976, 800-400-7972, (Web Site) [www.infomaxxcf.com](http://www.infomaxxcf.com) or [www.ampronix.com](http://www.ampronix.com).

Rave Media's PromoRoll "beverage seller" pull down sign fixes to any display or suction cups on glass. This new sign is ideal for wine tasting notes and food pairings, beer profiles and promotions, distilled spirits drink recipes and mixing tips. For more information on PromoRoll or beverage marketing P.O.S., contact Rave Media, (Tel) 1-866-699-2653, (Web Site) [www.ravemedia-marketing.com](http://www.ravemedia-marketing.com).

Strategic Packaging Solutions offers a wide variety of ballot boxes; counter-top style and floor standing. These standard ballot boxes are in-stock and offer customers savings on tooling costs. Ballot boxes can also be custom designed by Strategic's in-house team with accessories including printed header cards and tear-off ballot pads. Generic ballot boxes with promotion-specific removable header cards are also available. For more information, contact Strategic Packaging Solutions, Inc., 77 Courtland Avenue, Concord, ON Canada L4K 3S9; (Tel) 905-660-3510, 1-888-261-3338, (Fax) 905-660-3612, (Web) [www.strategicpackaging.ca](http://www.strategicpackaging.ca).
